Environmental Policy

GlobeWeigh is a provider of Industrial Weighing & Labelling Solutions. Throughout Ireland we are a leading force in Weighbridge and Food Industry Solutions. The company aims to incorporate environmental management within all aspects of our business, both on and off our premises.

GlobeWeigh understands that their activities have an impact on the environment and is committed to continual improvement and protection of the environment. GlobeWeigh seek to minimise waste, promote recycling, reduce energy and water consumption and where possible prevent pollution and protect the environment.

The company's ultimate aim is year to year improvement in environmental performance. This will be demonstrated through the accomplishment of environmental objectives and targets set out on annual basis. GlobeWeigh are committed to complying with all relevant environmental legalisation, regulations and other requirements. This policy is publicly available and is communicated to all employees via training and our company website.
