LIGHT INDUSTRIAL WEIGHING SOLUTIONS

COMPACT & BENCH SCALES

GlobeWeigh Super Six

The Super SS-6 IP68 Bench Scale is one of our most popular bench scales due to its stainless steel finish and IP68 waterproof rating. These bench scales are particularly popular in the food industry where they stand up to the rigorous demands, but we have supplied these to many other industries as well.
Available in 6, 15 & 30Kg

Durable Compact Scales for the Toughest Industrial Weighing Environments

The multipurpose Ranger 4000 is the right tool for industrial weighing applications in which value is important but quality, durability, and functionality cannot be compromised.

Portable with die-cast metal housing and a rechargeable battery, this scale is equipped with seven application modes that can provide results for many industrial weighing and measurement needs.

Available in models from 3kg - 30kgs

OHAUS Defender™ 3000 Series

This economy line of dry or wet-use indicators, bases and bench scales is ideal for general weighing and simple counting applications in production, packaging, warehouse, inventory, shipping and receiving areas. Used in both bench and floor scale configurations, they feature a simple yet rugged tubular-frame base design and indicators with positive feedback keys, high-contrast backlit LCD display, built-in rechargeable battery operation and flexible mounting capabilities.

Ohaus Stainless Steel Scales

The Defender 3000 Series of bench scales is ideal for general weighing and simple counting applications when working in a damp environment or when it is essential to thoroughly clean the scale. The Defender 3000 Series features a simple, yet rugged stainless steel design and NEMA 4X/IP65 stainless steel indicator with tactile keys, backlit LCD display, and built-in rechargeable battery operation. The base is a durable

construction with a 304 stainless steel platform, stainless steel tubular frame, column and indicator bracket, and IP67 stainless steel load cell.

Traffic Light Checkweigher

The GlobeWeigh Traffic Light Checkweigher is manufactured from all stainless steel construction. With 3 displays it is easy to view the upper and lower tolerance as well as the live weight. With the options of memories to store various product

specifications it is easy to change from one product to another with almost no change over time.

COUNTING SCALES

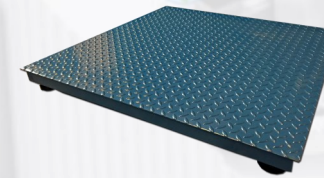

Reliable Counting Scales to Ensure Accurate Results

Accurate weighing and counting are assured with high-resolution, 30-item library function, and auto-optimization software that reduces errors.

Easy to use in multi-step counting operations. Features three backlit LCD displays, including a centrally located count display, and an easy-to-navigate menu.

Eliminate waiting time and increase control of your operation with accurate one-second results.

FLOOR SCALES

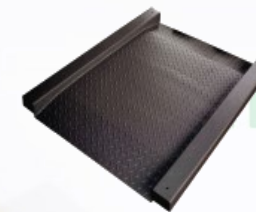

Surface Mounted:

Above ground and made in various sizes, capacities, and materials to suit the environment. Surface finish can be to 0.5 Ra.

Easy Lift:

This has the added advantage of using struts for supporting the top plate. It enables the operator to lift the cover easily and get access to all areas of the scale for cleaning.

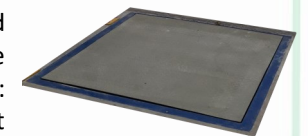

Drive Through:

This scale works well in areas where a lifting device may not be available to place, for instance, a large drum on the scale. A simple pallet truck may be used.

Pit Scale:

Where access is difficult, and space is required the pit scale sits easily on the floor. (Note: The easy lift above will also sit into a pit for cleaning access)

All Floor Scales are available in various sizes and capacities. They come in Mild Steel Painted and Stainless Steel finishes and are available ATEX rated.

PRINTING AND COMBINED CALIBRATION SERVICES

INDICATORS

T31P ABS

Economical ABS Plastic Indicator for Basic Industrial Applications

T31P is OIML approved, approved for use in all legal-for-trade applications. The ultra-long-lasting internal rechargeable battery provides operation on a single charge for up to 100 hours.

T32XW Stainless Steel

Economical Stainless Steel Washdown Indicator for Basic Industrial Applications.

The NEMA 4X/IP65 stainless steel construction protects the indicator from water damage and a hinged front cover opens up easily, offering instant access for servicing. The long-lasting internal rechargeable battery provides continuous operation for up to 58 hours, ensuring uninterrupted operation for more than two straight days.

Systec 6000

Weight indicator for demanding weighing and batching applications

With the IT6000E, SysTec offers a W&M approved, versatile weight indicator. The robust stainless steel housing allows the

use in harsh industrial environments.

Bizerba IS20

Small but powerful: This robust compact weighing terminal fitted with a verifiable data memory, stands out in many areas whether it is checking, order picking, packaging, dispatch, documenting or stocktaking.

LABEL PRINTERS

Desktop Printers - Zebra's desktop printers are compact, simple to operate, reliable and cost effective. They leverage our long history of innovation and industry-leading capabilities.

Industrial Printers - Zebra's industrial printers meet your needs to help you do more with less. And, they easily integrate into your existing enterprise and keep pace with your evolving business challenges.

Mobile Printers - Zebra mobile printers provide portable printing for all your barcode needs. Price labelling, warehouse management and retail are just a small sample of application covered by Zebra mobile printers

Desktop Printers - Super easy to install and use, the compact PC43d PC43t is a purpose built platform with an innovative design guided from customer input.

Industrial Printers - Smart, strong and secure, the PX4i delivers outstanding performance for round-the-clock mission-critical applications. Stand-alone Smart Printing eliminates PC costs and complexity, and enables quick ROI.

COMBINED CALIBRATION

We offer a comprehensive service, calibration and support capability for a wide range of products throughout Ireland. We offer support and calibration to both our own products and other manufactures.

Our skilled engineers are trained to support a diverse range of equipment from Metal Detectors, Weighing Equipment and Printers.

We offer on Site calibration services on Metal Detectors , Weighing Equipment and Temperature Probes.

Weigh Scale Calibration

From 1kg to 100,000kgs we offer a full weigh scale calibration and verification service. We are Weights & Measures and NSAI approved.

Metal Detection Calibration

We offer an on site calibration of your metal detection systems to ensure that the equipment is working and operating to its full potential and within the manufacturers parameters. We help you stay compliant with our calibration service

Temperature Probe Calibration

With our specialised temperature calibration equipment, we are able to service a wide range of industries such as pharmaceuticals, medical, food & beverage and other environments where you need to store temperature-sensitive goods.

OUR SERVICES

Comprehensive service and support – when and where you need it!

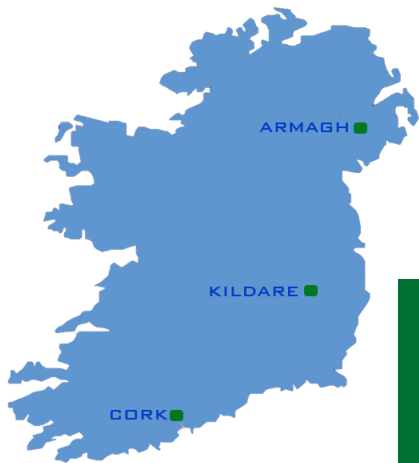

Globeweigh offers a comprehensive service, calibration and support capability for a wide range of industrial weighing equipment throughout Ireland. We support both our own and other manufacturers' weighing equipment, and packages can be tailored to meet your specific operational and fiscal requirements.

Service is available from our centres in Armagh, Kildare and Cork, with 24 hour cover also available for companies operating around the clock and at weekends.

KEEPING YOUR CRITICAL WEIGHING EQUIPMENT IN TIP-TOP CONDITION

We appreciate and understand the importance of a well defined and implemented service and maintenance program. Your equipment and installation have their own specific requirements and will only perform as well as the maintenance program you have in place. Our support packages are designed to suit your exact needs, giving you time to focus on the efficient running of your business, without having to worry about breakdowns.

Service visits are arranged to suit your company's working pattern and we can fit in with scheduled shutdowns or plan visits during evenings and week-ends. If your equipment is used more extensively at certain times of the year due to seasonal influences, we will assess this and provide a plan that is just right for your business.

- Coverage for all public and bank holidays
- Coverage for week-ends
- Priority four hour response time
- 24 hour telephone support

TOTAL SOLUTIONS

FROM WEIGH PRICE LABELLERS TO WEIGHBRIDGES TO BENCH SCALES

Globeweigh's skilled engineers are trained to support a diverse range of weighing equipment from laboratory balances through to weighbridges. Our core philosophy is based on identifying and remedying any potential problems ahead of time, thereby optimising your equipment 'uptime'. Contact us to find out more about service and support programs for automatic and non-automatic weighing equipment and instrumentation including:

Weighbridges, Bench scales, Floor scales, Counting scales, Weigh price labellers, Pallet truck scales, Forklift truck scales, Crane scales, Laboratory scales, Hopper scales, Tank & silo weighing systems, Mechanical scales, Axle weighers and Check weighers.

ISO 9001:2015 Quality

ISO 45001:2018 Health & Safety

ISO 14001:2015 Environmental

NSAI Authorised Verifiers

Directive 2014/31/32

We are certified for the self verification (SV) of NAWI's (non-automatic weighing instruments) and MID (automatic weighing instruments)
