

GLOBEWEIGH

PROVIDING MARINE SCALES ONBOARD WEIGHING

GLOBEWEIGHs Marine scale from Unisystem is one-of-a-kind, approved and verified for legal-for-trade catch weighing at sea according to Directive 2009/23/EC. The scale is fast, robust, hygienic, easy-to-use and exceptionally accurate. Furthermore, it is durable and designed to withstand heavy washdown conditions. The scale may be used all over the world and no recalibration is needed.

TECHNICAL information

- Capacities 3-150 kg
- Platform sizes: 286 x 345 mm, 348 x 415, 350 x 350 and 500 x 600 mm
- Measurement speed: 0.4 seconds
- Powered by 230VAC (standard), 12-29VDC or battery
- Power consumption: 25mA at 230VAC, 200mA at 24VDC
- Temperature range: -10°C to +40°C
- Communication: RS232 protocols (typically used by personal computers) or RS485 (used in industrial control systems)
- Compensates automatically for gravity, motion, and tilt
- Sealing: IP67- dust tight and

protected against immersion for 30 minutes at depths 150mm-1000mm

- Stainless steel: SAE 316 / EN 1.4401 – one of the most commonly used commercial grades of steel used in various industry sectors.
- 2-year warranty

TOTAL SOLUTIONS

FROM WEIGH PRICE LABELLERS TO
WEIGHBRIDGES TO BENCH SCALES

Globeweigh's skilled engineers are trained to support a diverse range of weighing equipment from laboratory balances through to weighbridges. Our core philosophy is based on identifying and remedying any potential problems ahead of time, thereby optimising your equipment 'uptime'. Contact us to find out more about service and support programs for automatic and non-automatic weighing equipment and instrumentation including:

Weighbridges, Bench scales, Floor scales, Counting scales, Weigh price labellers, Pallet truck scales, Forklift truck scales, Crane scales, Laboratory scales, Hopper scales, Tank & silo weighing systems, Mechanical scales, Axle weighers and Check weighers.
